# PENNSYLVANIA HOSPITAL.

---

At the 124th Annual Meeting of this Corporation, held 5th month 4th, 1874,  
the following Contributors were elected to serve for the ensuing year.

## MANAGERS.

WILLIAM BIDDLE,  
ALEX. J. DERBYSHIRE,  
SAMUEL MASON,  
SAMUEL WELSH,  
WISTAR MORRIS,  
JACOB P. JONES,

BENJAMIN H. SHOEMAKER,  
ALEXANDER BIDDLE,  
JOSEPH B. TOWNSEND,  
JOSEPH C. TURNPENNY,  
JOHN J. THOMPSON,  
T. WISTAR BROWN.

## TREASURER.

JOHN T. LEWIS.

At the first meeting of the Managers, the Board unanimously elected

WILLIAM BIDDLE, *President.*

BENJAMIN H. SHOEMAKER, *Secretary.*

# OFFICERS APPOINTED BY THE MANAGERS.

### SOLICITORS,

GEO. W. BIDDLE AND GEORGE BIDDLE, No. 208 S. FIFTH STREET.

# ANNUAL REPORT

TO THE CONTRIBUTORS TO THE PENNSYLVANIA HOSPITAL.

---

It has been usual to place before you the details of the relief afforded to the sick and wounded from the records of the Medical and Surgical Hospital on Pine Street, followed by a summary of results of the past year reported to the Board from the two Departments for the Insane in West Philadelphia.

In following this practice, we first present to you the details of the work performed in the Out-Patient Department, intended for the relief of convalescents whom it was not necessary to retain in the wards of the Hospital for the Sick, and such other applicants as there was no occasion of introducing therein.

The number of patients applying for medical aid	
was . . . . .	646
The number of visits was . . . . .	1,232
The number of patients applying for surgical aid	
was . . . . .	1,678
The number of visits was . . . . .	10,256
Total cases, 2324 ; Total visits, 11,488.	

To render this Department efficient, it was found necessary to construct a new one-story building on Eighth Street, which was estimated to cost under \$1000 ; the building has been completed, and found to be well adapted to the purposes of relief it was intended to afford.

Some plan of supplying the simpler prescriptions of medical use in this Department has been suggested as a necessity ; but our means have not yet been sufficient to allow of a special appropriation for this purpose.

The wisdom of the institution of the Out-Patient Department has been so clearly manifested in the relief to the wards by the diminution of beds formerly occupied by patients who were self-helping, and capable of movement, so productive of good results to a new class of free patients, and so advantageous in relieving the Hospital of unnecessary maintenance and great demands upon its limited

revenues, that we feel called upon to express our obligations to the members of the surgical and medical staff who have successfully and energetically set in active operation this new influence in the charitable mission of your Institution.

The new ward for the reception of cases of recent accidents, and the dressing of the wounds of injured patients, who are afterwards removed to the surgical wards, has proved to be a great improvement in the hospital system, not only promoting the early relief of new patients, but removing from the wards the demoralizing and depressing influences of the contemplation of cases of painful distress. New additions to this Department are required; a convenient bath-room, and other appliances for comfort of the helpless.

The receipts and payments of the Hospital for the Sick have been as follows:—

#### RECEIPTS.

Income from the Permanent Fund of the Hospital, and other investments, to 4th mo. (April) 25, 1874 . . . . .	\$45,820 07
Received by Steward from contributions, pay-patients, &c. . . . .	11,366 24
Total receipts . . . . .	<u>\$57,187 31</u>

#### PAYMENTS.

Expenditures by Steward of cash received from Treasurer, including salaries . . . . .	\$47,400 00
Expenditure by Steward of cash received by him from other sources, &c. . . . .	10,910 15
Total expenses of Pine Street Hospital, exclusive of any estimate of interest on value of buildings and grounds . . . . .	<u>\$58,340 15</u>

This portion of our Institution has paid for the gratuitous relief of the suffering sick and hurt since the first opening of its wards, in actual cash outlay, upwards of \$900,000.

The excess of expenditures over the receipts during the past year, as shown by the treasury, is \$6,932 98.

Clinical lectures have been given gratuitously to all students of incorporated institutions approved by the lecturers. These lectures have been given semi-weekly to male students, and weekly to women, all mixed instruction being carefully avoided under the general rules of the Hospital. The class of women students was 55 in number,

and nothing has occurred to mar the harmony of the courses of lectures.

The hall devoted to clinical instruction has been altered, to gain an increase of light, and a better arrangement of seats, by which a greater number of the class are enabled to be in closer proximity to the objects of the lectures.

The hall is in regular use from 9th month (September) to 7th month (July), being only closed during the extreme heat of summer. The Library room has been repainted and refurnished in a substantial manner. A new gateway on Ninth Street has been constructed, with some increased accommodation of the out-buildings.

The bequests and contributions received and announced to the Board during the past year, are as follows, viz.:—

From the Executors of JESSE GEORGE, deceased .	\$20,000 00
REBECCA A. TASKER, current expenses of Hospital for Insane . . . . .	100 00
GEORGE WATSON . . . . .	30 00
CHARLES M. MORTON . . . . .	30 00
MORRIS J. LEWIS . . . . .	30 00
JAMES HOPKINS . . . . .	30 00
MARY D. BROWN, for current expenses for Hospital for the Sick—a benefaction continued for many successive years . . . . .	1,000 00
From the widow and children of MORDECAI L. DAWSON, deceased, in confirmation of a legacy in his will rendered nugatory by the statutes of the Commonwealth . . . . .	5,000 00
N. P. S., current expenses general . . . . .	500 00
EDWIN R. COPE . . . . .	200 00
JOS. C. TURNPENNY . . . . .	50 00
C. S. BOKER's Estate, for the Insane Department, in fulfilment of a promise . . . . .	490 50
Estate of CHARLES TAYLOR, deceased, announced as a legacy to be paid after the decease of his widow . . . . .	10,000 00
JOHN AGNEW, a legacy . . . . .	1,500 00
Executors of JESSE GEORGE, in distribution of a fund under their control (this in addition to the legacy above named) . . . . .	10,000 00
W. D. COOPER, Executor of ESTHER L. COOPER .	2,000 00
MONCURE ROBINSON, per Dr. J. F. MEIGS, for Per- manent Fund . . . . .	1,000 00

Estate of ST. GEORGE TUCKER CAMPBELL for the	
Hospital for the Sick . . . . .	\$1,000 00
“ for the Insane . . . . .	1,000 00
W. K. R. . . . .	10 00
SAUNDERS LEWIS . . . . .	500 00
A donation for current expenses from ——— .	1,365 00
J. T. EPPELSHEIMER, leathern belting for Male Department of Hospital for Insane.	

The annual accounts of our Treasurer, and the detailed statements of all payments and receipts of the Stewards of the three Departments, vouched and certified by Committees of the Board of Managers, have been prepared for your inspection, and will be found upon the table. The Committee of Ladies who have visited the wards of the Hospital for the Sick, report that they have much reason to believe that their efforts to promote the moral and spiritual welfare of the patients have been productive, in many instances, of lasting good.

In the case of the petition to secure the widening of Spruce Street, opposed by the Managers, the Court, in the early part of the summer of 1873, refused the writ of mandamus applied for by the petitioners. The Managers have on their part caused a petition to be prepared and presented to the legislature, to procure the repeal of the act authorizing the mutilation of the Hospital property, on the ground that it was an act passed to promote private interests, and not for the general benefit of the people of our city.

In 10th month (October), 1873, the Historical Society, occupying our building on Spruce Street, advised the Managers of their having completed the work of curbing and paving on the Spruce Street front with new granite curbstones and North River flagstone, performed in full compliance with their compact, in a thorough and substantial manner, and, in addition thereto, the lighting of the street with improved lamps, much to the benefit and convenience of the neighborhood.

The Historical Society yet possess the privilege, at their own expense, of opening the north wall of the Hospital on the south side of Spruce Street, and replacing it with an open iron railing, so as to make it conform in general character to the Pine Street front; this privilege of beautifying the neighborhood, obtained at their own solicitation, has not been modified or rescinded by any action of your Board.

The details of the management of the Department for the Insane, in West Philadelphia, under Dr. Kirkbride, the able “General Super-

intendent and Physician-in-Chief," and Dr. S. Preston Jones, First Assistant Physician in charge of the Male Department, are fully set forth in the Annual Report of the Superintendent published, which has been distributed among you; from it we glean the following abstract:—

Total number of patients in both Departments during the year . . . . .	656
Number admitted during the year . . . . .	261
Number discharged . . . . .	240

Of those discharged, 111 were reported as cured, 54 as improved in health, 40 died soon after being brought to the Hospital, and the remaining 35 were considered as nearly stationary at the time of their removal. Of the cured, 102 were inmates less than one year, and 57 of these less than three months.

These records confirm the importance of the early use of the Hospital in cases of mental disorder, and the opinion of our Physician-in-Chief of their general curability when recent, and the almost hopelessness when allowed to become chronic. The Hospital for the Insane should, therefore, be early sought—not as a permanent asylum—but as the speediest source of relief and cure, when that repose which a too active brain requires can be afforded, without initiating restraint. Careful attendance in cheerful comfortable rooms, with inducements to use the pleasant parlors and attractive grounds, may be made to afford a healthy seclusion, without the sensation of the loss of a reasonable freedom.

Up to this time the Department for the Insane has extended its relief to 6651 patients of both sexes and of all conditions, circumstances, and nativities. Of those admitted, 3105 have been discharged cured.

The amount expended upon free patients during the past year was \$16,938. The total number of free patients under care was 88, and 45 of these were admitted during the year; in addition to this expenditure, about \$20,000 have been expended upon 97 patients, maintained at a charge less than the average cost per patient, not including any estimate of interest on the value of building and grounds.

The position of Steward of the Male Department has been filled by the appointment of George Jones to the vacancy created by the resignation of Joshua P. Edge, a tried and faithful officer, whose subsequent death was a calamity which we, his friends, who knew his ability and the scrupulous probity of his life, have much reason to mourn.

The municipal improvements upon Market Street, involving the grading, curbing, and paving, with the laying of water-pipes along the front of our property, has caused us much expense and inconvenience. Although the Hospital possesses the right, under a legislative contract confirmed by the courts, to preserve its grounds from curtailment by the encroachment of streets, your Board have in this instance thought that it would meet with your approbation that they should throw no obstacle in the way of reasonable city improvement, provided the actual outlay to meet the changes required in our inclosure, and the necessary grading to adapt our grounds to the present city plan, be reimbursed to us by the city; and we have communicated to the authorities our willingness to make no further opposition to the changes *now* designed, if these reasonable requests on our part be first complied with.

The new North Fisher Ward, completed under the architectural skill of Samuel Sloan, has cost, with all improvements of heating, gas, ventilating, and water apparatus, \$43,289 12, nearly \$11,000 in excess of the legacy of Joseph Fisher. By this addition, there is an increase of 44 new beds for patients and domestics, and the capacities of the Male and Female Departments are made equal to the maintenance of 500 patients, or 250 patients for each. By skilful subdivision of each Department, a good classification of forms of malady is obtained, with all the advantages of the detached cottage or separate family system, with complete control of the general comfort, and without the inconvenience of separate supplies, distribution, attendance, and supervision.

The whole legacy of Joseph Fisher, principal and interest, has produced \$57,515 51, which, expended upon the two buildings known by the names of the North and South Fisher Wards, has furnished accommodation for 50 patients.

Your Hospital for the sick and wounded has always been, in the main, a free one, offering in the heart of your city that aid to sudden accident which the sentiment of the present day has not yet declared it to be the duty of municipalities to provide; it has thus, since 1796—the year in which grant was made to be applied to the erection of the buildings—been sustained by voluntary contributions, presenting to our citizens, for three-quarters of a century, the honorable spectacle of a “succession of distresses relieved by a succession of charities.” Since its origin, the Pennsylvania Hospital has expended upwards of \$1,200,000 in actual cash outlay in the support of the sick, the hurt, and the afflicted; this we believe to be the true mission of charity, to afford present aid and comfort

to those languishing and helpless from wounds and disease; and for this purpose we again apply to you to relieve our necessities, never ending, and always recurring. We have no resources but the pride of our citizens in our history, and that hearty sympathy which has hitherto maintained it. Other institutions receive aid from the commonwealth and municipality in which they exist; we receive none from city or State.

The Massachusetts General Hospital receives by law an interest in the profits of life-insurance companies over six per cent. within that State, and the profits of such companies are claimed in many cases to have been enormous. \$100 endowments for free beds, for a single year, is another form of contribution productive of a large revenue to that Hospital; *ours*, so far, has had nothing but a life of trust that the "Infinitely rich One," who is all-powerful to put it into the hearts of men to relieve distress, will not forget us and our noble cause in the hour of trial. It has been well said by one of the British Essayists, "No man can question whether wounds and sickness are not really painful; whether it be not worthy of a good man's care to restore those to ease and usefulness, from whose labor infants and women expect their bread, and who, by a casual hurt, or lingering disease, lie pining in want and anguish." For aid to such we appeal to the public sympathy.

The erection of magnificent architectural structures to hand down to posterity the distinction of great men, was the characteristic of a barbarian civilization, giving no expression of sympathy for human distress. The Hospital for the relief and cure of the suffering was unknown to ancient empires, and takes its origin from the change of thought, and its development after the Christian era. The *Maison Dieu*, of Paris, claiming to date its origin as far back as the 7th century, is said to be the earliest building known as a Hospital, in the modern signification of a place of cure; but yet in this country, and in this generation, endowments for relief, or for culture, are rather the exceptional than the characteristic form of the benefactions of generous-hearted men, who lavish their funds on piles of stone rather than upon aids to the minds or bodies of the people.

It has lately been asserted in the English press that the systematized co-operation of the beneficial institutions of London would exhibit an ability for relief greater than the need of the suffering dependents of that city. There is a competition of Hospitals which is injurious to the ends of their establishment, causing all to be dwarfed in usefulness, where there is a needless division, and limited means of maintenance. In the condition of our own build-

ings, requiring much renovation after nearly a century of work well done by our predecessors, without the means to make thorough trial of new systems of ventilation requiring considerable alterations, and with the desire to preserve to your Institution the high rank it has always held among Hospitals, we again appeal to you, and through you to our fellow-citizens, for that liberal support for the relief of suffering, always springing from ennobling feeling, which a century and a quarter of usefulness and continued labor claims at the hands of all good citizens.

In conclusion, we desire to record our thankfulness for the earnest, unintermitting exertions of the members of the Medical and Surgical Staff in discharging the onerous duties of their position, so long gratuitously performed, in maintaining the honorable name and character of your Hospital. To Wm. G. Malin, the Steward of the Pine Street Hospital, who for fifty years has faithfully discharged duties of unusual difficulty with remarkable perseverance and fidelity, we also tender our grateful thanks.

Signed by direction and on behalf of the Board of Managers.

WILLIAM BIDDLE, *President.*
